

By Howard G. O'Connor, John Mark Jewett, and R. Kenneth Smith, 1951

### EXPLANATION

#### OIL AND GAS DATA

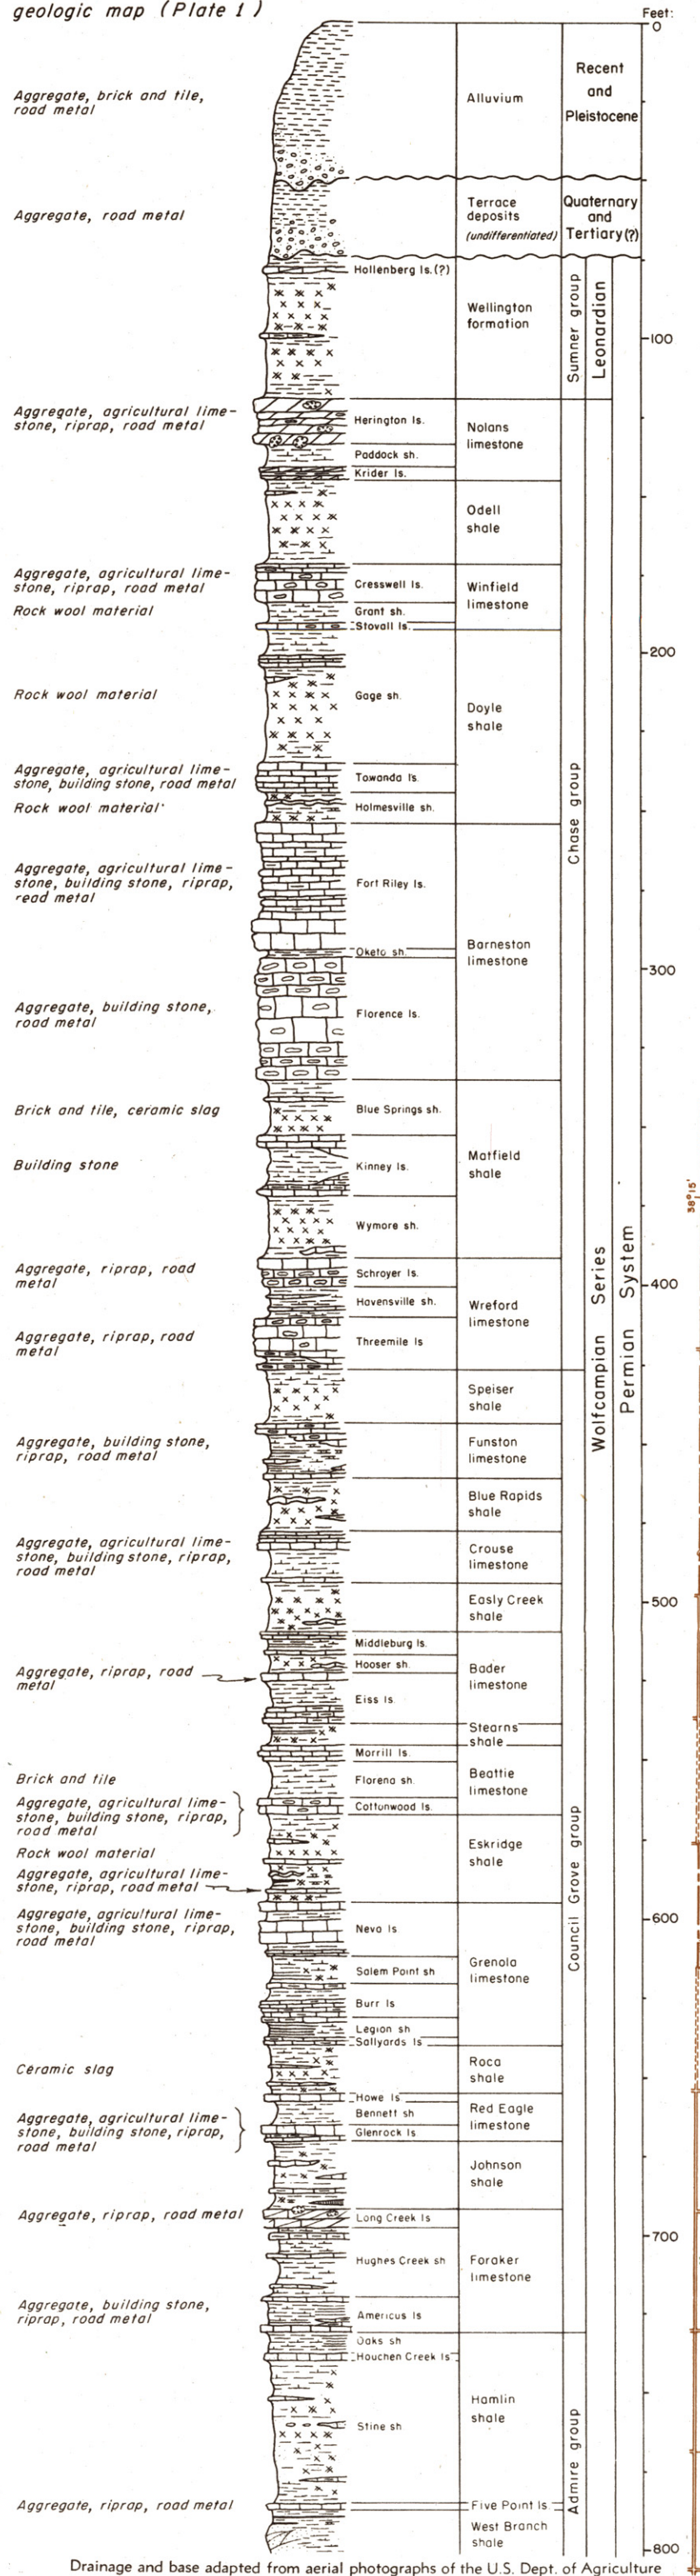

- Oil or gas pool
- Oil well
- Abandoned oil well
- Dry hole
- Gas well
- Abandoned gas well
- No log
- Location indefinite
- Products line
- Oil line, single
- Oil line, multiple
- Gas line, single
- Gas line, multiple
- Gas line compressor

#### NONMETALLIC MINERAL RESOURCES

- Sand and gravel pit
- Limestone quarry
- Clay or shale sample location
- Depleted pit or quarry
- Plant
- Limestone outcrop line adjacent to sample localities. Numbers refer to chemical analyses, Table 1
- Depleted pits or quarries
- Terrace gravels
- Alluvium
- County boundary
- Township boundary
- Section line
- Federal or State highway
- Graded road
- Ungraded road
- Railroad
- Perennial stream
- Intermittent stream
- Lake or pond
- Dam
- Monument benchmark with spirit level elevation
- Less permanently marked benchmark with spirit level elevation

Section of outcropping rocks with present and potential economic uses of the stratigraphic units shown on the geologic map (Plate 1)

Drainage and base adapted from aerial photographs of the U.S. Dept. of Agriculture
