If filing a Form T-1 for multiple wells on a lease, enter the legal description of the lease below:

Surface Owner Information:

Name: _____

Address 1: _____

Address 2: _____

City: _____ State: _____ Zip: _____ + _____

When filing a Form T-1 involving multiple surface owners, attach an additional sheet listing all of the information to the left for each surface owner. Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

Select one of the following:

- I certify that, pursuant to the Kansas Surface Owner Notice Act (House Bill 2032), I have provided the following to the surface owner(s) of the land upon which the subject well is or will be located: 1) a copy of the Form C-1, Form CB-1, Form T-1, or Form CP-1 that I am filing in connection with this form; 2) if the form being filed is a Form C-1 or Form CB-1, the plat(s) required by this form; and 3) my operator name, address, phone number, fax, and email address.
- I have not provided this information to the surface owner(s). I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I must provide the name and address of the surface owner by filling out the top section of this form and that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

If choosing the second option, submit payment of the \$30.00 handling fee with this form. If the fee is not received with this form, the KSONA-1 form and the associated Form C-1, Form CB-1, Form T-1, or Form CP-1 will be returned.

I hereby certify that the statements made herein are true and correct to the best of my knowledge and belief.

PURCHASE AND SALE AGREEMENT

This Purchase and Sale Agreement (this "Agreement") is made and entered into by and between *Riley Exploration Permian, Inc., formerly Tengasco, Inc.*, 29 East Reno, Suite 500, Oklahoma City, Oklahoma 73104, hereinafter referred to as "Seller", and *Trans Pacific Oil Corporation*, 100 S. Main, Suite 200, Wichita, KS 67202, hereinafter referred to as "Buyer."

WITNESSETH:

WHEREAS, Seller has agreed to sell to Buyer and Buyer has agreed to purchase from Seller certain interests in oil and gas leases and other rights and assets relating thereto upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of the premises and the mutual covenants and agreements herein contained, Seller and Buyer hereby agree as follows:

ARTICLE I

Section 1. Purchase and Sale of Property, Rights and Assets. At Closing, Buyer hereby agrees to purchase from Seller and Seller hereby agrees to sell, transfer, assign, and convey to Buyer free and clear of secured liens granted by Seller, the following properties, rights and assets (hereinafter, sometimes "Subject Assets"):

(a) All of Seller's right, title and interest of whatsoever kind or nature in and to the producing oil and gas leases and lands described on Exhibit "A" attached hereto and made a part hereof (said interests herein referred to as the "Producing Property");

(b) All of Seller's right, title, and interest of whatsoever kind or nature in and to the non-producing oil and gas leases and lands described on Exhibit "B" attached hereto and made a part hereof (said interests herein referred to as the "Non-Producing Property

(c) All of Seller's interest in the Producing Property, and all associated fixtures, personal property and equipment, whether located on the Producing Property or elsewhere, and used in the operation thereof including, without limitation, the well, well equipment, casing, tanks, tubing, pumping units, motors, pipelines, gathering lines, and all other machinery, equipment and improvements used in the operations thereof;

(d) All of Seller's rights, to the extent transferrable, in and to all existing and effective oil, gas, liquids, condensate, casinghead gas and natural gas sales, purchase, exchange, gathering, transportation and processing contracts, operating agreements, balancing agreements, joint venture agreements, partnership agreements, farmout agreements, authorizations for expenditure, cost analysis and prospect data agreements, seismic data and licenses, proprietary geologic data, and other contracts, agreements and instruments of any nature or kind, insofar only as they relate to Seller's interests in the Producing Property;

(e) All of Seller's right, title, and interest in and to Seller's personal property, including all inventory, equipment, real estate leases, business records, and other assets, whether tangible or intangible, directly related to the operation of the Producing Property; including, but not limited to: all equipment and inventory located at the Hays, Kansas yard, the Hays, Kansas office lease, and all other personal property of Tengasco, Inc. owned in the state of Kansas immediately prior to its merger with Riley Permian, Inc.; and

(f) All of Seller's rights and obligations under the permits, licenses, servitudes, easements, rights-of-way, orders, sales agreements, crude oil purchase and sales agreements, surface leases, operating agreements, processing agreements, options, agreements or rights which are appurtenant to or used in connection with the ownership or operation of the Producing Property or with the production, treatment, sale or disposal of water, hydrocarbons or associated substances from the Producing Property.

(f) It is the intent of Seller and Buyer that all of Seller's business assets directly related to the operation of its Kansas Producing Properties be considered Subject Assets pursuant to this Agreement, including equipment, machinery, contracts and other interests directly relating to the operation of the Subject Assets. The parties agree that in the event any Subject Assets are not specifically enumerated in this Agreement, it may be amended after execution to include said Subject Assets.

ARTICLE II

Section 2.1 Purchase Price. Buyer has agreed to pay to Seller at closing a total purchase price (the "Purchase Price") for the Subject Assets (including the Producing Property, Non-Producing Property, and related assets) [REDACTED] payable to Seller in good and immediately available funds, subject to the adjustments defined herein.

Section 2.2. Title. Prior to Closing, Buyer shall have the right to conduct title verification regarding the Subject Assets. Title verification shall include the right to access and analyze the legal files and other documents relating to Subject Assets. Seller herein agrees to accommodate and grant access to said files and documents during Seller's normal business hours. Notwithstanding anything stated in this Agreement to the contrary, Seller will have no obligation to disclose or make available any files, records, data, or information that may be subject to a legal privilege or is subject to a confidentiality obligation owed by Seller to a third party. Buyer agrees to have its title review completed prior to March 25, 2021, and the results of said title review shall be delivered to Seller with a detailed and written notice of any title defects discovered during the title review. Seller shall verify and accept the title findings of the Buyer, or cure any material title defects by March 28, 2021. In the event that the Buyer's title review results in the discovery of material title defects which may decrease the value of the Subject Assets and cannot be cured prior to March 28, 2021, the Buyer shall have the right to evaluate and determine a proportionate adjustment of the Purchase Price. Notwithstanding the generality of the foregoing, there will be no adjustment or reduction to the Purchase Price to account for uncured title defects, excluding title defects arising after September 22, 2020 and prior to Closing, unless (and only to the extent that) the sum of (a) the aggregate value of all uncured title defects asserted by the Buyer, plus (b) the aggregate value of all uncured environmental defects asserted by the Buyer [REDACTED], and such adjustment will be applied only with respect to such excess. The proposed adjustment shall be delivered to the Seller prior to March 30, 2021, and the Seller shall reject or accept the proposed adjustment prior to Closing. If the Seller rejects the proposed adjustment then the Buyer may terminate this Agreement without penalty; and if the Seller accepts the proposed adjustment, the Purchase Price will be amended to reflect the adjustment. Seller will use reasonably commercial efforts to obtain such consents, approvals, waivers, or other type of permission to convey the titled Subject Assets to Buyer as Buyer may reasonably require; provided that Seller will not be required to make payments or undertake obligations in favor any third party in order to obtain such consents, approvals, waivers, or other type of permission.

Section 2.3 Environmental Compliance. Prior to the Closing Date Buyer have the right to conduct an examination of the Subject Assets to determine compliance with all state and federal environmental laws and regulations; provided that no sampling or other invasive inspections of the Subject Assets may be conducted prior to Closing without Seller's prior written consent, which consent may be withheld in Seller's sole discretion. Buyer may provide Seller with a detailed written notice describing any environmental defects on or before March 25, 2021. Upon receipt of notice of an environmental defect, Seller shall have the option to attempt to remediate such environmental defect to the satisfaction of the Buyer on or before March 28, 2021. If the Seller requires additional time to cure the defect, the parties may agree in writing to extend the period to cure and adjust Closing if necessary. If Seller elects not to cure the defect or request additional time to cure the defect, Buyer shall have the right to evaluate and determine a proportionate adjustment of the Purchase Price to account for any decrease in value caused by the defect. Notwithstanding the generality of the foregoing, there will be no adjustment or reduction to the Purchase Price to account for uncured environmental defects, excluding environmental defects arising after September 22, 2020 and prior to Closing, unless (and only to the extent that) the sum of (a) the aggregate value of all uncured title defects asserted by the Buyer, plus (b) the aggregate value of all uncured environmental defects asserted by the Buyer [REDACTED], and such adjustment will be applied only with respect to such excess. The proposed adjustment shall be delivered to the Seller prior to March 30, 2021, and the Seller shall reject or accept the proposed adjustment prior to Closing. If the Seller rejects the proposed adjustment then the Buyer may terminate this Agreement without penalty; and if the Seller accepts the proposed adjustment, this Agreement will be amended to reflect the adjustment, Seller will use reasonably commercial efforts to obtain such consents, approvals, waivers, or other type of permission to

convey the environmental Assets to Buyer as Buyer may reasonably require; provided that Seller will not be required to make payments or undertake obligations in favor any third party in order to obtain such consents, approvals, waivers, or other type of permission.

Section 2.4 Preferential Rights. Any third parties holding the right to purchase or acquire any Subject Asset or any interest therein as a result of the transactions contemplated by this Agreement ("Preferential Rights"), are listed on the attached Exhibit "D" along with the time period for exercising the Preferential Right. Seller will provide all notices necessary to comply with or obtain the waiver of such Preferential Rights prior to the Closing. To the extent any such Preferential Rights are exercised by any holders thereof, then the Subject Asset subject to such Preferential Rights will not be sold to Buyer, will be excluded from the Subject Assets and sale under this Agreement. Under such circumstances, the Purchase Price will be adjusted downward by the amount paid by the holder of such Preferential Right. On the date of Closing, if the time period for exercising any Preferential Right has not expired but no notice of waiver (nor of the exercise of such Preferential Right) has been received from the holder thereof, then the Subject Asset subject to such Preferential Right will be included in the Closing, with no adjustment to the Purchase Price. In the event no notice of waiver (nor of the exercise of such Preferential Right) has been received from the holder of a Preferential Right and the Subject Asset subject to the Preferential Right are included in the Closing, Seller agrees to indemnify and hold Buyer harmless from and claims, liabilities, or losses associated with said Preferential Right subsequent to Closing.

ARTICLE III

Section 3.1. Effective Time. The parties have agreed that the effective time of the transfer of the Producing Property shall be as of **12:00 AM CST on March 1, 2021** (the "Effective Time").

Section 3.2. Adjustments. The parties have agreed that all proceeds, proportionate to the Seller's interest, from production attributable to the Producing Property from and after the Effective Time shall belong to Buyer. The Purchase Price will be adjusted to reflect the receipt of such proceeds by the Seller, net of the costs of production paid by the Seller. The parties have agreed that all proceeds from production, proportionate to the Seller's interest, including oil inventory in the tanks, or reimbursements of expenses previously paid by Seller which are attributable to the Producing Property prior to the Effective Time, shall be paid or reimbursed to Seller at Closing, net of the costs of production paid by the Buyer, and such proceeds and reimbursements shall be based on the Buyer's wellhead crude oil price for the month of February 2021. The Purchase Price shall further be adjusted at Closing by an amount equal to all unpaid Ad Valorem Property Taxes attributable to the Subject Assets prior to the Effective Time, regardless of when such Taxes may be assessed or due.

Section 3.3. Assumption of Obligations. Buyer shall be liable and responsible for all Claims and Liabilities incurred after the Effective Time that are attributable to the Subject Assets. Buyer shall indemnify, defend and hold Seller harmless from and against any Claims and Liabilities arising from the failure of Buyer to pay, perform and discharge the obligations assumed hereunder, excluding those arising from gross negligence or willful misconduct of Seller (including agents and employees). Seller shall be liable and responsible for all Claims arising and Liabilities incurred prior to the Effective Time that are attributable to the Subject Assets. Seller shall indemnify, defend, and hold Buyer harmless from and against any Claims and Liabilities arising from the failure of Seller to pay, perform, and discharge the obligations assumed hereunder, excluding those arising from gross negligence or willful misconduct of Buyer. As used in this Agreement, the term "Claims and Liabilities" means, without limitation, any and all causes of action, claims to personal property, persons or the environment, damages, demands, expenses, assessments, fines, lawsuits, liabilities, debts, liens, taxes, losses and other obligations of any kind, nature or description, whether known or unknown and which are attributable to the interest(s) being sold and purchased.

Section 3.4. Buyer's Independent Evaluation. In entering into this Agreement, Buyer acknowledges and affirms that it has relied and will rely solely on the terms of this Agreement and upon its independent analysis, evaluation and investigation of, and judgment with respect to, the business, economic, legal, tax or other consequences of this transaction including its own estimate and appraisal of the extent and value of the petroleum, natural gas and other reserves attributable to the Subject Assets and the value of any other assets. Buyer is purchasing the Subject Assets for commercial or business use. Buyer has sufficient knowledge and experience in financial and business matters that enables Buyer to evaluate the merits and the risks of transactions such as the purchase and sale contemplated herein, and Buyer is not in a significantly disparate bargaining position with Seller.

Section 3.5. Access to Records. Prior to Closing Seller will make the files and records relating directly to the Assets maintained by Seller, to the extent disclosure of the same to Buyer is not restricted by confidentiality, licensing or other agreements with third parties (the "Records") available to Buyer and its representatives for inspection and review at Seller's offices in Hays, Kansas and Greenwood Village, Colorado during its normal business hours for the purpose of permitting Buyer to perform its due diligence review and to make copies of the same at Buyer's risk and expense. In the event Closing does not occur, Buyer shall promptly return all copies of the Records to Seller. Seller shall have the right to keep all original Records for its own purposes after Closing. Seller does not make any warranty or representation of any kind as to the Records or any information contained therein, and Buyer agrees that any conclusions drawn therefrom shall be the result of its own independent review and judgment.

Section 3.6. Closing. Closing of the sale and purchase of the Subject Assets (including the Producing Property and related assets) shall occur on March 31, 2021, at 1 P.M. at Seller's office in Oklahoma City, Oklahoma (the "Closing"). In the event that material title defects or environmental defects that cannot be cured prior to March 31, 2021 are identified during due diligence, this date may be extended for a period of fourteen (14) days. Otherwise, the date and location of Closing may be amended upon mutual agreement by the parties. At Closing, Seller will deliver to Buyer such deeds, assignments, consents, and other transfer documents as the Buyer may reasonably require to effectuate the sale and transfer of the Assets to Buyer and the Buyer shall deliver the Purchase Price adjusted in the manner set for the herein, together with any transfer documents executed by Buyer as may be reasonably required.

Section 3.7. Further Assurances. From time to time after Closing, Seller and Buyer shall each execute, acknowledge and deliver to the other such further instruments and take such other action as may be reasonably requested in order to accomplish more effectively the purposes of the transaction contemplated by this Agreement.

ARTICLE IV

Section 4.1. Entire Agreement. This Agreement, together with the Exhibits hereto, constitute all of the promises, covenants, agreements, conditions and undertakings between the parties hereto and supersedes any and all prior agreements, either expressed or implied, or written. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors, assigns, and legal representatives.

Section 4.2. Assignment. Any Assignment of Producing Property prepared for execution by either Buyer or Seller shall be subject to the terms, conditions and in the form appearing on Exhibit "C" to this Agreement. If necessary Seller shall prepare all Transfer of Operator forms and other forms or reports required by any governmental agency, including the Kansas Corporation Commission, and all notices to third parties, arising out of or in connection with the sale and purchase of the Subject Assets contemplated herein. All assignments and documents referenced in this section shall be prepared by Buyer, at Buyer's expense; all such assignments and documents shall be reviewed and accepted by Seller at Closing, and shall be executed by the pertinent party or parties at that time. All assignments and other documents referenced herein shall be delivered at Closing. Buyer shall be responsible to record and/or to provide to the pertinent governmental agencies and pertinent third parties all assignments and other documents referred to in this Section at Buyer's sole risk and expense, without recourse to Seller.

Section 4.3. Notices. The parties agree that all notices and communications required or permitted under this Agreement shall be in writing and addressed as set forth below. Any communication or delivery hereunder shall be deemed to have been duly made and the receiving party charged with notice (i) if personally delivered, when received, (ii) if sent by e-mail, when received during normal business hours (iii) if mailed, five business days after mailing, certified mail, return receipt requested, or (iv) if sent by overnight courier, one day after sending.

Section 4.4. Counterparts. This Agreement may be executed and delivered (including by facsimile or e-mail transmission) in one or more counterparts, each of which will be deemed to be an original copy of this Agreement and all of which, when taken together, will be deemed to constitute one and the same agreement.

Section 4.5. Name Change. As soon as practicable, but in any event within thirty (30) days after the Closing, Buyer will eliminate, remove, or paint over the use of the name "Tengasco, Inc." and any variants thereof from the Subject Assets. Buyer will be solely responsible for any direct or indirect costs or expenses resulting from the change in use of name and any resulting notification or approval requirements.

IN WITNESS WHEREOF, Buyer and Seller have executed this Agreement as of this 10th day of March, 2021, however TO BE EFFECTIVE as of March 1, 2021.

Exhibit C

Form of Assignment and Bill of Sale

ASSIGNMENT AND BILL OF SALE

This Assignment and Bill of Sale ("*Assignment*"), dated effective March 1, 2021 (the "*Effective Date*") is from Riley Exploration Permian, Inc., formerly Tengasco, Inc., 29 East Reno, Suite 500, Oklahoma City, Oklahoma 73104 ("*Assignor*"), to Trans Pacific Oil Corporation, 100 S. Main, Suite 200, Wichita, KS 67202 ("*Assignee*").

For \$100.00 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, transfers and conveys to Assignee the following described properties, rights and assets (the "Subject Assets") upon the terms and conditions hereinafter set forth:

(a) All of Seller's right, title and interest of whatsoever kind or nature in and to the producing oil and gas leases and lands described on Exhibit "A" attached hereto and made a part hereof (said interests herein referred to as the "Producing Property");

(b) All of Seller's right, title, and interest of whatsoever kind or nature in and to the non-producing oil and gas leases and lands described on Exhibit "B" attached hereto and made a part hereof (said interests herein referred to as the "Non-Producing Property");

(c) All of Seller's interest in the Producing Property, and all associated fixtures, personal property and equipment, whether located on the Producing Property or elsewhere, and used in the operation thereof including, without limitation, the well, well equipment, casing, tanks, tubing, pumping units, motors, pipelines, gathering lines, and all other machinery, equipment and improvements used in the operations thereof;

(c) All of Seller's rights, to the extent transferrable, in and to all existing and effective oil, gas, liquids, condensate, casinghead gas and natural gas sales, purchase, exchange, gathering, transportation and processing contracts, operating agreements, balancing agreements, joint venture agreements, partnership agreements, farmout agreements, authorizations for expenditure, cost analysis and prospect data agreements, seismic data and licenses, proprietary geologic data, and other contracts, agreements and instruments of any nature or kind, insofar only as they relate to Seller's interests in the Producing Property;

(d) All of Seller's right, title, and interest in and to Seller's personal property, including all inventory, equipment, business records, and other assets, whether tangible or intangible, directly related to the operation of the Producing Property; and

(e) All of Seller's rights and obligations under the permits, licenses, servitudes, easements, rights-of-way, orders, sales agreements, crude oil purchase and sales agreements, surface leases, operating agreements, processing agreements, options, agreements or rights which are appurtenant to or used in connection with the ownership or operation of the Producing Property or with the production, treatment, sale or disposal of water, hydrocarbons or associated substances from the Producing Property.

It is the intent of Seller and Buyer that all of Seller's business assets directly related to the operation of its Kansas Producing Property be considered Subject Assets, including equipment, machinery, contracts and other interest directly relating to the operation of the Subject Assets.

This Assignment is made by Assignor without warranty of title, whether express or implied.

Notwithstanding anything to the contrary contained in this Assignment, Assignor makes no representations or warranties whatsoever, and disclaims all liability and responsibility for any representation, warranty, statement, or information made or communicated (orally or in writing) to Assignee (including any opinion, information, or advice that may have been provided to Assignee, its affiliates, or its representatives, by Assignor, any affiliates or representatives of Assignor). Without limiting the generality of the foregoing, Assignment, Assignor expressly disclaims and negates any representation or warranty, express, implied, at common law, by statute, or otherwise,

relating to (i) the title to any of the Subject Assets; (ii) the condition of the Subject Assets (including any implied or express warranty of merchantability, fitness for a particular purpose, or conformity to models or samples of materials), it being distinctly understood that the Subject Assets are being sold "as is," "where is," and "with all faults as to all matters"; (iii) any information, data, or other materials (written or oral) furnished to Assignee by or on behalf of Assignor (including the existence or extent of hydrocarbons or the mineral reserves, the recoverability of such reserves, any product pricing assumptions, and the ability to sell hydrocarbon production after the Effective Date); (iv) the environmental condition and other condition of the Subject Assets and any potential liability arising from or related to the Subject Assets; and (v) the calculation of, and liability with respect to, any taxes, royalties, rentals, and other payment obligations of Assignee arising after the Effective Time relating to the Subject Assets.

By its acceptance of this Assignment, Assignee acknowledges and affirms that it has made its own independent investigation, analysis, and evaluation of the Subject Assets (including Assignee's own estimate and appraisal of the extent and value of Assignor's hydrocarbon reserves attributable to the Subject Assets and an independent assessment and appraisal of the environmental risks associated with the acquisition of the Subject Assets). This Assignment and all rights and covenants and conditions in this Assignment will be considered covenants running with the land and will inure to and be binding upon the Parties and their respective successors and assigns.

This Assignment may be executed in counterparts. All counterparts together constitute only one Assignment, but each counterpart is considered an original.
