It is the intent and effect of this Assignment that the conveyance, transfer or assignment of any Assets by Assignee or any future conveyances, transfers or assignments made by Assignee shall not in any way diminish, compromise, extinguish, or effect a release of Assignor's rights against Assignee, or Assignee's obligations to Assignor, except as permitted by or provided in the Purchase Agreement. Assignee shall remain responsible to Assignor for all obligations, indemnities and liabilities due Assignor under the Purchase Agreement, unless and until expressly released by Assignor or as otherwise provided therein. 11. Recordation. To facilitate recordation, there may be omitted from the Exhibits to this Assignment in certain counterparts descriptions of property located in recording jurisdictions other than the jurisdiction in which the particular counterpart is to be filed or recorded.

12. No Multiple Conveyances. Assignor and Assignee acknowledge and agree that they may be required to execute separate deeds and assignments covering certain of the Assets conveyed hereby on forms approved by Governmental Authorities or other Persons to effect the conveyances of such Assets. Any such separate deed or assignment (a) shall evidence this Assignment and conveyance of the applicable Assets herein made and shall not constitute this additional conveyance of any of the Assets, (b) is not intended to modify, and shall not modify, any of the terms, covenants and conditions or limitations on warranties set forth in this Assignment or the Purchase Agreement and is not intended to create, and shall not create, any additional representations, warranties or covenants of or by Assignor or Assignee, and (c) shall be deemed to contain all of the terms and provisions of this Assignment, as fully and to all intents and purposes as though the same were set forth at length in such separate deed or assignment.

13. Governing Law and Resolution of Disputes. This Assignment and any claim, controversy or dispute based upon, arising out of or relating to this Assignment, or the negotiation, execution or performance of this Assignment is governed by and interpreted in accordance with the laws of the State of Texas, without regard to its choice of law rules or those of any other jurisdiction that would cause the laws of another jurisdiction to apply; *provided, however*, that any matters related to real property shall be governed by the laws of the State where such real property is located. 14. Counterparts. This Assignment may be executed in any number of counterparts, each of which shall be deemed an original of this Assignment, and which together will constitute one and the same instrument; provided that no Party is bound to this Assignment unless and until all Parties have executed and delivered a counterpart. For purposes of assembling all counterparts into one document, Assignor is authorized to detach the signature page from one or more counterparts and, after signature by the respective Party, attach each signed signature page to a counterpart.
