JOINT OPERATING AGREEMENT

THIS AGREEMENT, entered into by and between **SIROKY OIL MANAGEMENT, INC.**, hereinafter designated and referred to as "Operator", and **DESTINY SERVICES, LLC** hereinafter referred to as "Non-Operator."

WHEREAS, the Non-Operator is the owner of working interests in oil and gas leases on the land identified in Exhibit "A" attached hereto and the parties hereto have reached an agreement to explore and develop these leases and/or oil and gas interests for the production of oil and gas to the extent and as hereinafter provided,

NOW, THEREFORE, it is agreed as follows:

ARTICLE I

DEFINITIONS

As used in this agreement, the following words and terms shall have the meanings here ascribed to them:

A. The term "oil and gas" shall mean oil, gas, casinghead gas, gas condensate, and all other liquid or gaseous hydrocarbons and other marketable substances produced therewith, unless an intent to limit the inclusiveness of this term is specifically stated.

B. The terms "oil and gas lease", "lease" and "leasehold" shall mean the oil and gas leases covering tracts of land lying within the Contract Area which are owned by the parties to this agreement.

C. The term "Contract Area" shall mean all of the oil and gas leasehold interests intended to be developed and operated for oil and gas purposes under this agreement. Such oil and gas leasehold interests are described in Exhibit A.

D. The term "drilling unit" shall mean the area fixed for the drilling of one well by order or rule of any state or federal body having authority. If a drilling unit is not fixed by any such rule or order, a drilling unit shall be the drilling unit as established by the pattern of drilling in the Contract Area or as fixed by express agreement of the Drilling Parties.

E. The term "drillsite" shall mean the oil and gas lease or interest on which a proposed well is to be located.

F. The terms "Drilling Party" and "Consenting Party" shall mean a party who agrees to join in and pay its share of the cost of any operation conducted under the provisions of this agreement.

G. The terms "Non-Drilling Party" and "Non-Consenting Party" shall mean a party who elects not to participate in a proposed operation.

H. The term "Prospect" shall mean an area within the Contract Area on which the parties own oil and gas leases, which area is geographically defined as possibly containing one or more reservoirs of oil or gas and on which a well is to be drilled in accordance with Exhibit 'A.'

I. The terms "Subject Leases" shall mean any and all oil, gas, or saltwater disposal leases in the Contract Area which are in existence at the time of this Agreement.

Unless the context otherwise clearly indicates, words used in the singular include the plural, the plural includes the singular, and the neuter gender includes the masculine and the feminine.

ARTICLE II

EXHIBITS

The following exhibits, as indicated below and attached hereto, are incorporated in and

made a part hereof:

- A. Exhibit "A," shall include the following information:
1. Description of lands subject to this agreement,
 2. Restrictions, if any, as to depths, formations, or substances,
 3. Parties to this agreement with addresses and telephone numbers for
notice purposes,
 4. Percentages or fractional interests of parties to this agreement,
 5. Oil and gas leases and/or oil and gas interests subject to this agreement,
and
 6. Burdens on production
- B. Exhibit "B," Accounting Procedure.
- C. Exhibit "C," Insurance.

ARTICLE III

INTEREST OF PARTIES

- A. Interests of Parties in Costs and Production:

Unless explicitly changed by other provisions in this agreement, all costs and liabilities incurred in operations under this agreement shall be borne and paid, and all equipment and materials acquired in operations on the Contract Area shall be owned, by the parties as their interests are set forth in Exhibit A. The parties shall own all production of oil and gas from the Contract Area subject to the payment of royalties to the extent shown in Exhibit A.

- B. Excess Royalties, Overriding Royalties and Other Payments:

Unless explicitly changed by other provisions in this Agreement, if the interest of any party in any lease covered hereby is subject to any royalty, overriding royalty, production payment or other burden on production in excess of the amount stipulated in Exhibit "A" (the "Production Burden") such party so burdened (the "Burdened Party") shall assume and alone bear, pay and discharge the Production Burden and shall indemnify, defend and hold harmless the other parties from and against any liability therefor. Further, if the Burdened Party fails to pay, when due, its share of expenses chargeable hereunder, all provisions of Article VII.B. shall be enforceable against the Production Burden in the same manner as they are enforceable against the working interest of the Burdened Party.

- C. Subsequently Created Interests:

The Non-Operator shall not create or otherwise assign any royalty, overriding royalty, production payment or other burden on production (including, but not limited to, mortgages or security interests) (hereinafter "Subsequently Created Interests") without the express written consent of the Operator. This provision shall be considered a direct consent required for Non-Operator to create or otherwise assign any Subsequently Created Interest which shall be disclosed to any assignee prior to any agreement to assign any Subsequently Created Interest. Should Non-Operator fail to disclose and otherwise obtain Operator consent under this Article III(C) prior to attempting assignment of any Subsequently Created Interest, the Non-Operator shall indemnify, defend and hold harmless from any claims or liability that may result therefrom (including, but not limited to, reasonable attorney fees).

ARTICLE IV

TITLES

- A. Title Examination:

Title examination shall be made on the drillsite of any proposed well prior to commencement of drilling operations. The opinion will include the ownership of the working interest, minerals, royalty, overriding royalty and production payments under the applicable leases. Operator shall cause title to be examined by outside attorneys. The cost incurred by Operator in procuring abstracts and fees paid outside attorneys for title examination (including preliminary supplemental, shut-in gas royalty opinions and division order title opinions) shall be borne by the Drilling Parties in the proportion that the interest of each Drilling Party bears to the total interest of all Drilling Parties. Operator shall make no charge for services rendered by its

staff attorneys or other personnel in the performance of the above functions. No well shall be drilled on the Contract Area until after the title to the drillsite or drilling unit has been examined as above provided, and the title has been approved by the examining attorney. All losses incurred, by reason of failure of title to any lease, shall be joint losses and shall be borne by all parties in proportion to their interests. There shall be no readjustment of interests in the remaining portion of the Contract Area.

It is explicitly understood and agreed that no title opinion was procured by the Operator for the acquisition of the leases listed in Exhibit "A" and/or the Subject Leases. It is assumed by all parties that the renditions filed for the Subject Leases by the prior operator are a correct reflection of the royalty owners, overriding royalty owners, and their respective interests. The Operator shall not be liable to Non-Operators for any loss that may occur from reliance on said renditions.

ARTICLE V

OPERATOR

A. Designation and Responsibilities of Operator:

Operator shall conduct and direct and have full control of all operations on the Contract Area as permitted and required by, and within the limits of this agreement. It shall conduct all such operations in a good and workmanlike manner, but it shall have no liability as Operator to the other parties for losses sustained or liabilities incurred, except such as may result from gross negligence or willful misconduct.

B. Resignation or Removal of Operator and Selection of Successor:

1. Resignation or Removal of Operator: Operator may resign at any time by giving written notice thereof to Non-Operators. Operator may be removed if it fails to carry out its duties hereunder, or becomes insolvent, bankrupt or is placed in receivership by the affirmative vote of two (2) or more Non-Operators owning a majority working interest in the Contract Area. Such resignation or removal shall not become effective until 7:00 o'clock A.M. on the first day of the calendar month following the expiration of ninety (90) days after the giving of notice of resignation by Operator or action by the Non-Operators to remove Operator, unless a successor Operator has been selected and assumes the duties of Operator at an earlier date. Operator, after effective date of resignation or removal, shall be bound by the terms hereof as a Non-Operator.

2. Selection of Successor Operator: Upon the resignation or removal of Operator, a successor Operator shall be selected by the parties. The successor Operator shall be selected from the parties owning an interest in the Contract Area at the time such successor Operator is selected. The successor Operator shall be selected by the affirmative vote of two (2) or more parties owning a majority working interest in the Contract Area.

ARTICLE VI

DRILLING AND DEVELOPMENT

A. Initial Wells:

It is understood and agreed that the agreement is entered into by the Operator and Non-Operators subsequent to the acquisition of leases and Subject Leases in the Contract Area. The Subject Leases were drilled and completed by prior working interest owners and operators, and this agreement is for the operation of these Subject Leases and any subsequent operations outlined herein.

B. Subsequent Operations:

1. Proposed Operations: Should any party hereto desire to drill any well on a Prospect in the Contract Area other than the wells provided for in Article VI.A., or to rework, deepen or plug back a dry hole drilled at the joint expense of all parties or a well jointly owned by all the parties and not then producing in paying quantities, the party desiring to drill, rework, deepen or plug back such a well shall give the other parties written notice of the proposed operation, specifying the work to be performed, the location, proposed depth, objective formation and the estimated cost of the operation. The parties receiving such a notice shall have twenty (20) days after receipt of the notice within which to notify the party wishing to do the work in writing whether they elect to participate in the cost of the proposed operation. Failure of a party receiving such notice to reply within the period above fixed shall constitute an election by that party not to participate in the cost of the proposed operation. If all parties elect to participate in such a proposed operation, Operator shall, within one hundred twenty (120) days after expiration of the notice period of twenty (20) days actually commence the proposed operation and complete it with due diligence at the risk and expense of all parties hereto. If the actual operation has not been commenced within the time period and if any party hereto still desires to conduct said operation, written notice proposing same must be resubmitted to the other parties in accordance with the provisions hereof as if no prior proposal had been made.

2. Operations by Less than All Parties: If any party receiving such notice as provided in Article VI B.1 or VII D.1. elects not to participate in the proposed operation, then in order to be entitled to the benefits of this Article, the party or parties giving the notice and such other parties as shall elect to participate in the operation shall, within one hundred twenty (120) days after the expiration of the notice period of twenty (20) days actually commence the proposed operation and complete it with due diligence. Operator shall perform all work for the account of the Consenting Parties. Consenting Parties, when conducting operations on the Contract Area pursuant to this Article VI B.2., shall comply with all terms and conditions of this agreement.

If less than all parties approve any proposed operation, the proposing party, immediately after the expiration of the applicable notice period, shall advise the Consenting Parties of the total interest of the parties approving such operation and its recommendation as to whether the Consenting Parties should proceed with the operation as proposed. Each Consenting Party, within forty-eight (48) hours after receipt of such notice, shall advise the proposing party of its desire to (a) limit participation to such party's interest as shown in the Exhibit "A" or (b) carry its proportionate part of Non-Consenting Parties' interests, and failure to advise the proposing party shall be deemed an election under (a). The proposing party, at its election, may withdraw such proposal if there is insufficient participation and shall promptly notify all parties of such decision.

The entire cost and risk of conducting such operations shall be borne by the Consenting Parties in the proportions they have elected to bear same under the terms of the preceding paragraph. If such an operation results in a dry hole, the Consenting Parties shall plug and abandon the well and restore the surface location at their sole cost, risk and expense. If any well drilled, reworked, deepened or plugged back under the provisions of this Article results in a producer of oil and/or gas in paying quantities, the Consenting Parties shall drill complete and equip the well to produce at their sole cost and risk, and shall be operated by Operator at the expense and for the account of the Consenting Parties. Upon commencement of operations for the drilling, reworking, deepening or plugging back of any such well by Consenting Parties in accordance with the provisions of this Article, each Non-Consenting Party shall be deemed to have relinquished to Consenting Parties, and the Consenting Parties shall own and be entitled to receive, in proportion to their respective interests, all of such Non-Consenting Party's interest in the well and share of production therefrom. The Non-Consenting Parties shall forfeit their entire interest in the oil and gas leases comprising the Prospect in the Contract Area on which the operations were conducted except for the Non-Consenting Parties' interest in the Subject Leases. For purposes of this Agreement a Non-Consenting Party shall retain their leasehold interest in 40 acres for a prior producing oil well and 160 acres for a prior gas well, or the minimum acreage spaced for producing oil and gas wells as designated by State rules. Non-Consenting Parties shall immediately execute and deliver to the Consenting Parties an assignment or their forfeited leasehold interest and in lieu thereof this Operating Agreement and the Affidavit of Operator setting forth the facts regarding any such forfeiture may be used as such assignment and may be relied upon by any purchaser of oil or gas from the forfeited leasehold area.

Consenting Parties shall be responsible for the payment of all production, severance, excise, gathering and other taxes, and all royalty, overriding royalty and other burdens applicable to Non-Consenting Party's shares of production from the forfeited leasehold.

In the case of any reworking, plugging back or deeper drilling operation, the Consenting Parties shall be permitted to use, free of cost, all casing, tubing and other equipment in the well, but the ownership of all such equipment shall remain unchanged; and upon abandonment of a well after such reworking, plugging back or deeper drilling, the Consenting Parties shall account for all such equipment to the owners thereof, with each party receiving its proportionate part in kind or in value, less cost of salvage.

Notwithstanding the provisions of this Article VI B.2., it is agreed that without the mutual consent of all parties, no wells shall be completed in or produced from a source of supply from which a well located elsewhere on the Prospect in the Contract Area is producing, unless such well conforms to the then existing well spacing pattern for such source of supply.

The provisions of this Article shall only apply to any of the Subject Leases only if said well(s) cease to produce in paying quantities.

C. Sale of Production:

Each Non-Operator hereby gives to Operator the right to enter into contracts for the sale of 100% of the oil and gas produced from the Contract Area on such terms and conditions as Operator believes are the best available under the circumstances. Operator shall have the right to receive all payments from sale of production and after deduction of each Non-Operator's share of expenses shall make payment of each Non-Operator's respective share of proceeds to them.

Non-Operator shall remain liable for any deficiencies. Operator or an affiliated company of Operator shall have the first right to purchase oil or gas produced from the Contract Area so long as any such purchases are done in good faith.

D. Access to Contract Area and Information:

Each party shall have access to the Contract Area at all reasonable times, at its sole cost and risk to inspect or observe operations, and shall have access at reasonable times to

information pertaining to the development or operation thereof, including Operator's books and records relating thereto. Operator, shall furnish each of the other parties drilling reports and upon request with copies of all forms or reports filed with governmental agencies, and well logs.

The cost of gathering and furnishing information to Non-Operator, other than that specified above, shall be charged to the Non-Operator that requests the information.

E. Abandonment of Wells:

1. Abandonment of Dry Holes: Any well drilled and completed as a producing well shall not be plugged and abandoned without the consent of all parties. Should Operator, after diligent effort, be unable to contact any party, or should any party fail to reply within ten (10) days after receipt of notice of the proposal to plug and abandon such well, such party shall be deemed to have consented to the proposed abandonment. All such wells shall be plugged and abandoned in accordance with applicable regulations and at the cost, risk and expense of the parties who own an interest in such well. Any party who objects to plugging and abandoning such well shall have the right to take over the well and conduct further operations in search of oil and/or gas subject to the provisions of Article VI B.

If, within ten (10) days after receipt of notice of the proposed abandonment of any well, all parties do not agree to the abandonment of such well, those wishing to continue its operation shall tender to each of the other parties its proportionate share of the value of the well's salvable material and equipment, determined in accordance with the provisions of Exhibit "A", less the estimated cost of salvaging and the estimated cost of plugging and abandoning. Each abandoning party shall assign the non-abandoning parties, without warranty, express or implied, as to title or as to quantity, or fitness for use of the equipment and material, all of its interest in the well and related equipment, together with its interest in the leasehold estate as to, but only as to, the lease on which the well is located in the Prospect in the Contract Area at which operations were conducted, except for the abandoning parties interest in other producing wells. For purposes of this Agreement an abandoning party shall forfeit their leasehold interest in 40 acres for an abandoned oil well and 160 acres for an abandoned gas well, or the minimum acreage spaced for producing oil and gas wells as designated by state rules. The assignments or leases so limited shall encompass the "drilling unit" upon which the well is located. The payments by, and the assignments or leases to, the assignees shall be in a ratio based upon the relationship of their respective percentage of participation in the Contract Area to the aggregate of the percentages of participation in the Contract Area of all assignees. There shall be no readjustment of interest in the remaining portion of the Contract Area.

Thereafter, abandoning parties shall have no further responsibility, liability, or interest in the operation of or production from the well. Upon request, Operator shall continue to operate the assigned well for the account of the non-abandoning parties at the rates and charges contemplated by this agreement, plus any additional cost and charges which may arise as the result of the separate ownership of the assigned well.

ARTICLE VII

EXPENDITURES AND LIABILITY OF PARTIES

A. Liability of Parties:

The liability of the parties shall be several, not joint or collective. Each party shall be responsible only for its obligations, and shall be liable only for its proportionate share of the costs of developing and operating the Contract Area. It is not the intention of the parties to create, nor shall this agreement be construed as creating, a mining or other partnership or association, or to render the parties liable as partners.

B. Liens and Payments Defaults:

Each Non-Operator grants to Operator a lien upon its oil and gas leasehold interest in the Contract Area, and a security interest in its share of oil and/or gas when extracted and its interest in all equipment, to secure payment of its share of expense and costs, together with interest thereon at the rate provided in Exhibit "B"(I)(3). Non-Operator grants Operator such security interest under the Uniform Commercial Code of the State of Kansas and Operator shall be entitled to exercise the rights and remedies of a secured party under the Code and Non-Operator agrees to execute and deliver to Operator upon Operator's request all documents deemed reasonably necessary by Operator to perfect such security interest. The bringing of suit and the obtaining of judgment by Operator for the secured indebtedness shall not be deemed an election of remedies or otherwise affect the lien rights or security interest as security for the payment thereof. In addition, upon default by any Non-Operator in the payment of its share of costs and expenses, Operator shall have the right, without prejudice to other rights or remedies, to collect from the purchaser the proceeds from the sale of such Non-Operator's share of oil and/or gas until the amount owed by such Non-Operator, plus interest, has been paid. Each purchaser shall be entitled to rely upon Operator's written statement concerning the amount of any default.

Operator grants a like lien and security interest to the Non-Operators to secure payment of Operator's proportionate share of costs and expenses.

C. Payments and Accounting:

Except as herein otherwise specifically provided, Operator shall promptly pay and discharge costs and expenses incurred in the development and operation of the Contract Area pursuant to this agreement and shall charge each of the parties hereto with their respective proportionate shares upon the expense basis provided in Exhibit "A." Operator shall keep an accurate record of the joint account hereunder, showing costs and expenses incurred and charges and credits made and received.

Operator, at its election, shall have the right from time to time to demand and receive from the other parties payment in advance of their respective shares of the estimated amount of the cost and expense to be incurred in operations hereunder during the next succeeding month, which right may be exercised only by submission to each such party of an itemized statement of such estimated expense, together with an invoice for its share thereof. Each such statement and invoice for the payment in advance of estimated expense shall be submitted on or before the 20th day of the next preceding month. Each party shall pay to Operator its proportionate share of such estimate within fifteen (15) days after such estimate and invoice is received. If any party fails to pay its share of said estimate within said time, the amount due shall bear interest as provided in Exhibit "B"(1)(3) until paid. Proper adjustment shall be made monthly between advances and actual expense to the end that such party shall bear and pay its proportionate share of actual expenses incurred, and no more.

D. Limitation of Expenditure

1. Drill or Deepen: Without the consent of all parties, no well shall be drilled or deepened, except any well drilled or deepened pursuant to the provisions of Article VI of this agreement. Consent to the drilling or deepening shall include all necessary expenditures for the drilling or deepening, testing, completing and equipping of the well, including necessary tankage and/or surface facilities.

2. Rework or Plug Back: Without the consent of all parties, no well shall be reworked or plugged back except a well reworked or plugged back pursuant to the provisions of Article VI of this agreement. Consent to the reworking or plugging back of a well shall include all necessary expenditures in conducting such operations and completing and equipping of said well, including necessary tankage and/or surface facilities.

3. Other Operations: Without the consent of all parties, Operator shall not undertake any single project reasonably estimated to require an expenditure in excess of Ten thousand dollars (\$10,000.00) except in connection with a well, the drilling, reworking, deepening, completing, re-completing, or plugging back of which has been previously authorized by or pursuant to this agreement; provided, however, that, in case of explosion, fire, flood or other sudden emergency, whether of the same or different nature, Operator may take such steps and incur such expenses as in its opinion are required to deal with the emergency to safeguard life and property but Operator, as promptly as possible, shall report the emergency to the other parties.

E. Rentals, Shut-in Well Payments and Minimum Royalties:

Rentals, shut-in well payments and minimum royalties which may be required under the terms of any lease shall be paid by the Operator unless otherwise agreed.

In the event of failure to make proper payment of any rental, shut-in well payment or minimum royalty through mistake or oversight where such payment is required to continue the lease in force, any loss which results from such non-payment shall be borne in accordance with the ownership interests reflected on Exhibit "A" and Operator shall not be liable to Non-Operators for any such loss.

F. Taxes:

Beginning with the first calendar year after the effective date hereof, Operator shall render for ad valorem taxation all property subject to this agreement which by law should be rendered for such taxes, and it shall pay all such taxes assessed thereon before they become delinquent. If the ad valorem taxes are based in whole or in part upon separate valuations of each party's working interest, then notwithstanding anything to the contrary herein, charges to the joint account shall be made and paid by the parties hereto in accordance with the tax value generated by each party's working interest. Operator shall bill the other parties for their proportionate shares of all tax payments in the manner provided in Exhibit "B."

If Operator considers any tax assessment improper, Operator may, at its discretion, protest within the time and manner prescribed by law, and prosecute the protest to a final determination, unless all parties agree to abandon the protest prior to final determination. During the pendency of administrative or judicial proceedings, Operator may elect to pay, under protest, all such taxes and any interest and penalty. When any such protested assessment shall have been finally determined, Operator shall pay the tax for the joint account, together with any interest and penalty accrued, and the total cost shall then be assessed against the parties, and be paid by them, as provided in Exhibit "A."

Each party shall pay or cause to be paid all production, severance, excise gathering and

other taxes imposed upon or with respect to the production or handling of such party's share of oil and/or gas produced under the terms of this agreement.

G. Insurance:

At all times while operations are conducted hereunder, Operator shall carry or provide insurance for the benefit of the joint account of the parties as outlined in Exhibit "C." Operator shall require all contractors engaged in work on or for the Contract Area to carry such additional insurance as Operator deems advisable.

ARTICLE VIII

ACQUISITION, MAINTENANCE OR TRANSFER OF INTEREST

A. Surrender of Leases:

The leases covered by this agreement, insofar as they embrace acreage in the Contract Area, shall not be surrendered in whole or in part unless all parties consent thereto. However, should any party desire to surrender its interest in any lease or in any portion thereof, and the other parties do not agree or consent thereto, the party desiring to surrender shall assign, without express or implied warranty of title, all of its interest in such lease, or portion thereof, and any well, material and equipment which may be located thereon and any rights in production thereafter secured, to the parties not consenting to such surrender. Upon such assignment or lease, the assigning party shall be relieved from all obligations thereafter accruing, but not theretofore accrued, with respect to the interest assigned or leased and the operation of any well attributable thereto, and the assigning party shall have no further interest in the assigned or leased premises and its equipment and production. The party assignee or lessee shall pay to the party assignor or lessor the reasonable salvage value of the latter's interest in any wells and equipment attributable to the assigned or leased acreage. The value of all material shall be determined in accordance with the provisions of Exhibit "B", less the estimated cost of salvaging and the estimated cost of plugging and abandoning. If the assignment or lease is in favor of more than one party, the interest shall be shared by such parties in the proportions that the interest of each bears to the total interest of all such parties.

Any assignment, lease or surrender made under this provision shall not reduce or change the assignor's, lessor's or surrendering party's interest as it was immediately before the assignment, lease or surrender in the balance of the Contract Area, if any; and the acreage assigned, leased or surrendered, and subsequent operations thereon, shall not thereafter be subject to the terms and provisions of this agreement.

B. Renewal or Extension of Leases:

If any party secures a renewal of any oil and gas lease subject to this agreement, all other parties shall be notified promptly, and shall have the right for a period of ten (10) days following receipt of such notice in which to elect to participate in the ownership of the renewal lease, insofar as such lease affects lands within the Contract Area, by paying to the party who acquired it their several proper proportionate shares of the acquisition cost allocated to that part of such lease within the Contract Area, which shall be in proportion to the interests held at that time by the parties in the Contract Area. If some, but less than all, of the parties elect to participate in the purchase of a renewal lease, it shall be owned by the parties who elect to participate therein, in a ratio based upon the relationship of their respective percentage of participation in the Contract Area to the aggregate of the percentages of participation in the Contract Area of all parties participating in the purchase of such renewal lease. Any renewal lease in which less than all parties elect to participate shall not be subject to this agreement. Each party who participates in the purchase of a renewal lease shall be given an assignment of its proportionate interest therein by the acquiring party within ten (10) days of tendering their proportionate share of the acquisition cost to the party who acquired the renewal lease.

The provisions of this Article shall apply to the entirety of any renewal leases whether they are for the entire interest covered by the expiring lease or cover only a portion of its areas or an interest therein. Any renewal lease taken before the expiration of its predecessor lease, or taken or contracted for within six (6) months after the expiration of the existing lease shall be subject to this provision; but any lease taken or contracted for more than six (6) months after the expiration of an existing lease shall not be deemed a renewal lease and shall not be subject to the provisions of this agreement. The provisions in this Article shall also be applicable to extensions of oil and gas leases.

C. Maintenance of Uniform Interest:

For the purpose of maintaining uniformity of ownership in the oil and gas leasehold interests covered by this agreement, no party shall sell, encumber, transfer or make other disposition of its interest in the leases embraced within the Contract Area and in wells, equipment and production unless such disposition covers either:

1. The entire interest of the party in all leases and equipment and production; or
2. An equal undivided interest in all leases and equipment and production in the

Every such sale, encumbrance, transfer or other disposition made by any party shall be made expressly subject to this agreement and shall be made without prejudice to the right of the other parties, any transferee of an ownership interest in any Oil and Gas Lease or Interest shall be deemed a party to this agreement as to the interest conveyed from and after the effective date of the transfer of ownership; provided, however, that the other parties shall not be required to recognize any such sale, encumbrance, transfer or other disposition for any purpose hereunder until thirty (30) days after they have received a copy of the instrument of transfer or other satisfactory evidence thereof in writing from the transferor or transferee. No assignment or other disposition of interest by a party shall relieve such party of obligations previously incurred by such party hereunder with respect to the interest transferred, including without limitation the obligation of a party to pay all costs attributable to an operation conducted hereunder in which such party has agreed to participate prior to making such assignment, and the lien and security interest granted by this agreement shall continue to burden the interest transferred to secure payment of any such obligations

D. Waiver of Rights to Partition:

If permitted by the laws of the state or states in which the property covered hereby is located, each party hereto owning an undivided interest in the Contract Area waives any and all rights it may have to partition and have set aside to it in severalty its undivided interest therein.

E. Preferential Right to Purchase:

Should any party desire to sell all or any part of its interests under this agreement, or its rights and interests in the Contract Area, it shall promptly give written notice to the Operator, with full information concerning its proposed sale, which shall include the name and address of the prospective purchase (who must be ready, willing and able to purchase), the purchase price, and all other terms of the offer. The Operator shall then have an optional prior right, for a period of ten (10) days after receipt of the notice, to purchase on the same terms and conditions the interest which the other party proposes to sell.

ARTICLE IX

Option 1. This agreement is not intended to create, and shall not be construed to create, a relationship of partnership or an association for profit between or among the parties hereto. Notwithstanding any provision herein that the rights and liabilities hereunder are several and not joint or collective, or that this agreement and operations hereunder shall not constitute a partnership, if, for federal income tax purposes, this agreement and the operations hereunder are regarded as a partnership, each party hereby affected elects to be excluded from the application of all of the provisions of Subchapter "K", Chapter 1, Subtitle "A", of the Internal Revenue Code of 1954, as permitted and authorized by Section 761 of the Code and the regulations promulgated thereunder.
