Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

I acknowledge that, because I have not provided this information, the KCC will be required to send this information to the surface owner(s). To mitigate the additional cost of the KCC performing this task, I acknowledge that I must provide the name and address of the surface owner by filling out the top section of this form and that I am being charged a \$30.00 handling fee, payable to the KCC, which is enclosed with this form.

TO: KCC – Conservation Division
FROM: Phil Frick – Frick Energy Services, LLC on behalf of JTC Oil, Inc.
RE: Explanation of single well T-1 on the Detar Lease in Franklin County, KS

To Whom it May Concern:

JTC Oil purchased the Detar Lease from Haas Petroleum, LLC. The T-1 for that was submitted prior to this one. It then came to our attention that there is an existing well on the lease that wasn't under any operator's number, and the KCC requires that we also transfer that well (Detar 1: 15-059-19519). That is the purpose of this T-1.

Regards,

Phil Frick – Petroleum Landman
